Subject: ***Alert regarding the precarious social situation of Indigenous Peoples of Ituri and North Kivu***

Ladies and Gentlemen,

We, the Council of Sages of Kama, wish to alert national and international public opinion: the situation of the Indigenous Batwa peoples in Ituri and North Kivu is becoming increasingly alarming. This deterioration stems not only from the insecurity caused by the massacres perpetrated by the ADF/NALU, but also from the lockdowns imposed due to the Ebola virus outbreak.

If no action is taken to assist these populations, their extermination by hunger and destitution, in the midst of the 21st century, will become a reality in the very near future.

May those who can heed our warning act as swiftly as possible, before it is too late.

We thank you most sincerely.

Yours faithfully,

Lobola-lo-Ilondo
